

American Market Leadership

Dedicated researchers will discover many distinguishing characteristics.

Philosophy -

- Family owned and operated.
- 100% devotion to the luxury home market since 1961. Most dabble in luxury but design for commercial, institutional and tract home markets.
- Inventory of 1,500+ proprietary aluminum extrusions for 'none the same' customization.
- Design and manufacture proprietary hardware.
- ALL products designed for diverse oceanfront environments.
- Build a lifetime product with a Lifetime Warranty.

Engineering Infrastructure -

- Large (12+ persons) Engineering/Drafting Department.
- Onsite air, water and wind load test chamber.
- Onsite frost and condensation test chamber.
- Proprietary software.
- Cutting edge technology, e.g. struts, 3D modeling, SPA Energy Reports...

Intangibles -

- 207,000 facility on 12 acres with 350+ workforce.
- Boutique dealerships that specialize in luxury home windows and doors.
- Glass in excess of 100 square feet per lite.
- Largest 1" insulated glass units in the industry (70+ square feet) with a warranty.
- Continuity of design for seamless transition from room to room.
- Dock-To-Door protective packaging.
- Multiple QC layers demanding standards exceeding ASTM.
- Close to 1,000 glass choices in "The Big 3" categories (Cardinal, PPG & Guardian).

Modern Design Integrity -

- Big products for a big view. Glass offerings up to **200** square feet.
- Linear, firm extrusion lines compared to soft, round edges.
- Thicker glass and aluminum. Compare total weight, e.g. "pound for pound".
- Still offers non-thermally broken sliding doors for slimmer vertical sightlines.
- Performance flush sills, e.g. Series 4070-T and Series 3070 and 3070-T Sub Sillpan.

Fit and Finish -

- Proprietary pre-finish processes to maximize anodize and paint beauty.
- Proprietary Hardware:
 - Archetype Hardware (Patented)
 - Archetype II Hardware (Patented)
 - Archetype Narrow Hardware (Patented)
 - Archetype Narrow II Hardware (Patented)
 - Archetype Stainless Steel Strike Plate & Dust Box Assembly
 - A2 Stainless Steel Rollers (Certified Swiss Bearings)
 - A3 Stainless Steel Rollers (Certified Swiss Bearings)
 - A4 Stainless Steel Rollers (Certified Swiss Bearings)
 - Archetype Stainless Steel Edge Pull
 - Archetype 250-T Stainless Steel Screen Clips
 - Archetype Stainless Steel Cam Handle (Summer 2018)
 - Archetype Stainless Steel Multi-point Latch (Summer 2018)
 - Archetype Stainless Steel Hinges – Series 450-T
 - Archetype Stainless Steel Hinges – Series 250-T
 - Archetype Stainless Steel Hinged Screen Hinges

Build It Better -

- FSB brand hinged door levers and escutcheons.
- SAVIO brand hinges.
- RIXON brand floor closers.
- Weather rated flush track products.
- Hidden fixed panel blocks on all sliding doors.
- Hidden installation screws on all sliding doors (head, jamb and sill fillers).
- Double Leg MS Bottom Rail for beauty and weather performance.
- Extruded screen frames for strength and anodize finish matching.
- *UltraVue* screen mesh instead of standard fiberglass tract home mesh.
- Stainless steel screen clips that are easily removed and do not pierce the aluminum.
- Narrow stainless steel casement window butt hinges versus aluminum.

Maintenance -

- Simplest Care & Maintenance on the market, e.g. keep it clean.
