WELCOME NATURE HOME

More than a doorway. A home's entry is a defining moment in architectural design.

This innovation to the Gen4 line merges the warmth and richness of real wood with the precision and durability of our signature aluminum framing. Available in over 50 custom variations with a curated range of wood species and design patterns, the 4400 Wood Pivot enhances privacy, elevates curb appeal, and integrates effortlessly into Fleetwood's whole-house window and door system.

WOOD SPECIES

| | | | | | | | |
|-------------------------|-----------------------|--------|----------------|--------|-----------------|----------------|------------------|
| | | | | | | | |
| Tricoya Brilliant White | Tricoya Tricorn Black | Accoya | Sliced Red Oak | Walnut | Sapele Mahogany | Rift White Oak | Sliced White Oak |

* Geometric only available in Tricoya Tricorn Black or Brilliant White

NATURAL. REFINED. RESPONSIBLE.

The 4400 Wood Pivot supports biophilic design and sustainability principles, offering a seamless connection between the natural world and refined interiors.

Wood is one of the world’s most versatile and sustainable building materials—naturally storing carbon dioxide and helping offset emissions throughout its lifecycle. Our wood varieties pair effortlessly with Fleetwood’s sustainable aluminum systems, made from 100% recyclable material. Complete your vision with our earth-toned anodized finishes and factory-baked paints, engineered to reduce chemical waste and eliminate airborne toxins for a healthier home and planet.

**Design with Nature. Build with Integrity.
Grow with Fleetwood.**
